

Hydropower Science & Safety

Pre/Post Test

Directions: Circle the one best answer for each question.

1.	Which of the following is NOT part of the water cycle?		
	a) evaporation	c) dissipation	
	b) condensation	d) percolation	

2. Hydropower is a form of "green energy" in which flowing water turns the blades of a ______ to generate electricity.

a) turbine b) fan	C	c) solar panel d) razor

3. A ______ is used to raise the water level of a river and create a reservoir.

a) powernouse	c) waterway
b) moving magnet	d) hydropower dam

4.	Which of the following should you do to stay safe when boating or engaging in other water sports?		
	a) obey all warning signs	c) wear a U.S. Coast Guard-approved life jacket	
	b) make sure an adult can see you	d) all of the above	

- 5. You should never play on, near or in a _____ or ____ because they have cold, fast-moving water and steep, slippery sides that make it difficult to get out.
 a) river, stream _____ c) canal, flume
 b) swimming pool, lake _____ d) reservoir, pond
- 6. Which of the following could alert you to the danger of rising water levels?
 a) warmer than expected water temperatures
 b) the water changes from clear to muddy
 c) b and d
 d) increasing sounds of rushing water
- 7. If you see someone in a water-related emergency, you should
 a) call loudly for help
 b) ask them if the water is really cold
 c) dive in and try to help them
 d) none of the above
- 8. Which of the following is safe to do if your neighborhood floods?
 a) ignore evacuation warnings
 b) move to a safer place at a higher elevation
 c) use electrical devices when you are wet
 d) play in a flooded basement

9. If a storm knocks down a power line, what should you do? a) stay at least 50 feet away from the line b) report it to 911 and PG&E c) warn bystanders to stay far away d) all of the above

10. After falling to the ground as precipitation, runoff flows along the ground and can collect

a) drought
b) pollutants
c) percolation
d) dead zones

Hydropower Science & Safety

Pre/Post Test Answer Key

Information that relates to each question can be found on the pages listed below.

- 1. c) dissipation. Page 3
- 2. a) turbine. Pages 4
- 3. d) hydropower dam. Page 4
- 4. d) all of the above. Page 6
- 5. c) canal, flume. Page 7
- 6. d) b and d. Page 8
- 7. a) call loudly for help. Page 9
- 8. b) move to a safer place at a higher elevation. Pages 10 and 11
- 9. d) all of the above. Page 11
- 10. b) pollutants. Page 14
